

ABHIRAM M

DATA ANALYST

+91 79946 56595 | abhiramm872@gmail.com | Payyanur, Kerala, India

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience applying statistical analysis and machine learning to solve real business problems. Proficient in Python, SQL, Excel, Tableau, and Power BI for data cleaning, visualization, and predictive modeling. Skilled in data storytelling, dashboard development, and business intelligence reporting, with a proven track record of turning raw data into actionable insight for cross-functional teams.

EXPERIENCE

Data Analyst | Bz Analytics Pvt Ltd, Kerala, India & UAE

Nov 2025 – Feb 2026

Led development of interactive Power BI dashboards for CRM and PPE analytics projects, cleaning and structuring large datasets in Excel prior to transformation and modeling with Power Query and DAX. Embedded dashboards into web applications using Streamlit and delivered business insights that supported operational decision-making, while collaborating with cross-functional teams to automate reporting workflows and improve visualization quality.

Data Analyst Intern | Techolas Technologies, Kochi

Jun 2024 – Jan 2025

Cleaned, processed, and analyzed datasets using Python libraries including Pandas and NumPy, and built regression and classification models using Scikit-learn and XGBoost. Designed Tableau and Power BI dashboards for KPI monitoring and trend analysis, applying statistical techniques to surface actionable business insights and communicating findings through clear visual storytelling.

PROJECTS

Rainfall Prediction System — Python, Scikit-learn, XGBoost

- Developed predictive ML models using historical weather data; performed EDA, preprocessing, and regression analysis to improve prediction performance.
- Engineered features from temperature, humidity, and pressure variables to boost model accuracy and reduce prediction error.
- Compared multiple algorithms including Random Forest and XGBoost, tuning hyperparameters to select the best-performing model.

Top Indian Colleges Report — Power BI, DAX

- Built BI dashboards comparing institutional rankings and placements, applying data modeling for strategic insights.
- Created DAX measures and calculated columns to enable dynamic filtering across states, streams, and ranking categories.
- Designed drill-through reports allowing stakeholders to compare colleges side-by-side on fees, placements, and reputation.

COVID-19 Dashboard — Tableau

- Built an interactive dashboard visualizing pandemic cases, deaths, and recovery KPIs across India.
- Integrated time-series trend lines and geographic heat maps to highlight state-wise outbreak patterns.
- Automated data refresh from public health datasets to keep case counts and recovery rates current.

Walmart Sales Analysis — Excel, Power Query

- Analyzed retail sales trends and developed KPI dashboards to identify growth opportunities.
- Used Power Query to clean and merge multi-store sales data, reducing manual data prep time significantly.
- Built pivot-table-based visualizations to track seasonal sales patterns and top-performing product categories.

EDUCATION

Bachelor of Business Administration (BBA)

Aug 2019 – Mar 2022

Pilathara Co-operative Arts & Science College, Kannur University

CERTIFICATIONS

- Data Analytics Professional Certification — Techolas Technologies, Kochi (2024)
- Data Analytics Essentials — Cisco Networking Academy (2024)
- NACTET Data Analytics Certification — National Council for Technology and Training (2024)

TECHNICAL SKILLS

Languages: Python, SQL, R

Visualization: Power BI, Tableau, Excel

Libraries: Pandas, NumPy, Scikit-learn, XGBoost

Databases: MySQL, SQL Server

Tools: Jupyter, GitHub, MS Excel

Concepts: Data Cleaning, ETL, Dashboarding, KPI Reporting, Machine Learning
